

### Health & Wellness Benefits

# Sore knees and a tight lower back? It might start at your feet.

Good news: your **Company** benefits now include access to custom insoles from Hike Medical.

A Benefit Spotlight · Hike Medical Member Services

### The Story

**W**hen your feet aren't supported, your knees absorb extra stress, your hips compensate, and your lower back tightens to pick up the slack. The fatigue and soreness follows you the rest of the day, affecting everything from your mood to your sleep. Custom insoles are built to fit your actual foot shape, helping your body move the way it's meant to, instead of offloading the work up your skeleton.

**66%**

improvement in muscle & joint symptoms

**53%**

reported less pain

**54%**

more energy at work

✓ Your comfort is guaranteed. If the fit isn't right, Hike will rebuild your pair for free.

**COMING 2027!**

# MEMBER BENEFITS NEWSLETTER

---

## How It Works: Plan Members

---

- 1. Your Coverage:** Each year, your coverage already includes \$300 for orthopedic shoes and foot orthotics (up to a \$2,000 lifetime maximum). Starting in 2027, you can also leverage this benefit with Hike Medical for up to 2 pairs of custom insoles at \$120 each. Depending on your deductible, coinsurance and out-of-pocket maximum at the time of ordering, you may pay some or all of that \$120 per pair, with the rest billed to insurance.
- 2. The Hike Experience:** Complete a 5-minute scanning process from your phone and receive your custom pair, designed for your unique foot shape, in about 2 weeks.
- 3. Eligible Dependents:** Eligible dependents on the plan also have access to the same benefit.

To confirm your remaining balances towards the annual \$300 and \$2,000 lifetime max, reach out to Blue Cross Blue Shield Member Support. If you order through Hike and have already reached your annual or lifetime limits, you will be responsible to pay for any remaining cost identified after your claim is processed by Blue Cross Blue Shield.

## How It Works: Non-Plan Members

---

- 1. You're Eligible:** Custom insoles are available directly through Hike, at \$120 per pair, up to 2 pairs a year.
- 2. The Hike Experience:** Complete a 5-minute scanning process from your phone and receive your custom pair in about 2 weeks. Paid directly to Hike, no claims or paperwork required.
- 3. A Fraction of the Cost:** Getting custom insoles through a specialist runs \$500 to \$1,000. This is a fraction of that, with none of the wait.

### IN THEIR WORDS

#### Hear what members are saying about their Hike insoles

“Well, I was kind of skeptical at first about scannable foot inserts, but lo and behold, they’re the most amazing insoles I’ve ever encountered. I highly recommend them to anybody who has the opportunity to obtain them.

“For years I have been dealing with knee pain. The day I went to work with my custom insoles, I felt like a new man! Walking didn’t hurt. I felt like I could actually run, and my knee pain disappeared!
